To inspire excellence for all

Adamsrill
Primary School

"Pupils show a real interest in other people's lives and in the world around them. They are engaging, confident and witty in conversation. This is because they are used to adults in the school listening to them, valuing them and caring for them."
Ofsted, 2020

Welcome

Adamsrill Primary School is a vibrant school where children are encouraged to develop an enquiring mind, a desire for knowledge, have high personal expectations whilst understanding and respecting others.

The children are at the heart of all we do. Our dedicated team of staff gets to know each child as an individual and endeavour to identify and nurture their unique talents to ensure they all experience success and reach their full potential. Through our creative curriculum and extensive opportunities beyond the classroom, we ensure our children foster a passion for learning that will help to develop high aspirations and a lifetime of memories.

I am very proud to be headteacher of such a richly diverse school community in which different languages, cultures and religions learn together in harmony. As a school community we believe that children thrive when the entire school community – pupils, parents, staff, governors and the local community – come together. We strongly value the relationship we have with our parents and appreciate and value the support they give us and the role they play in enriching our children's experiences and supporting their child's education.

I encourage you to visit our website and to come and visit us. I look forward to welcoming you to our school in the near future.

Dr Increase Esoe
Headteacher

At Adamsrill Primary School, our vision is to inspire excellence for all. How will we achieve this? Through our four approaches to learning, we provide a creative, dynamic learning environment, we adapt to different needs, facilitate individuals' aspirations and empower pupils to have a positive impact in their community.

Creative Learning

Our creative curriculum is designed to spark interest in the world around us, ignite passion for learning and fire up ambition to inspire every child to realise and exceed expectations.

Creative learning is not just about the arts at Adamsrill. It is about providing opportunities for cross-curricular learning which deepens pupils' understanding by making connections between different aspects of the curriculum and real-life situations. It enables pupils to learn in a way that motivates and interests them, to take risks, be imaginative and to develop key skills and attitudes required for a successful future.

Individualised Learning

Our enthusiastic, experienced staff embrace each child's uniqueness and work hard to uncover each individual's talents and nurture their strengths. They understand that every child learns differently and so by using a multi-sensory approach to teaching, different learning styles are supported, and all pupils benefit.

We ensure that each child's talents and successes are celebrated and recognised. Pupils' work is displayed throughout the school; there are opportunities to shine through school productions, musical showcases, art exhibitions and sports day; and we host a range of achievement and sharing assemblies throughout the year.

Aspirational Learning

We aim to broaden pupils' horizons and raise their aspirations through a range of memorable experiences both inside and outside the classroom. Children are able to explore future professions, pursue their passions and acquire a multitude of skills through educational trips, visitors coming to the school and extra-curricular clubs such as Coding, Music and Italian.

We place high emphasis on our school values - Responsibility, Respect, Resilience, Integrity and Creativity – ensuring that they filter through everything we do. They are the attitudes, skills and beliefs that we want to instil in our pupils so that they can succeed now and in the future.

Collaborative Learning

Our community defines the Adamsrill experience. Everyone works together to create an environment that our pupils love. That's why we say we're the best school in the world!

We work in close partnership with our parents, encouraging them to take an active part in their child's learning through workshops, assemblies and target setting sessions. We see parents as playing a significant part in the education of their children, and greatly value their contribution to school life.

Our highly regarded Friends of Adamsrill Association work together with the whole school community to raise funds for a wide variety of projects that has enabled us to enhance the school's provision in many areas.

Thanks to our excellent location, the richness of our offer is enhanced through partnerships, networks and collaborative projects with local schools, organisations and businesses.

"Pupils are hardworking, and they rarely give up when faced with a challenge."

Ofsted, 2020

"Teachers are child-led, passionate and inspiring."
